Rose Forty-niner
(Plant Pat. No. 792)
1949 AARS. AWARD WINNER

Peterson & Dering
GROWERS OF FAMOUS OREGON ROSES
SCAPPOOSE, OREGON

THIS IS OUR 25th YEAR in the rose industry and to celebrate our silver anniversary, we would like to offer the finest selection of roses being grown by us for the Fall 1948-Spring 1949 season. All of these roses are grown in the Scappoose diking district where the fertile soil is especially adapted for nursery stock. This fact, together with Oregon's ideal rose growing weather, has long earned for us the reputation of Oregon's best source of good roses.

Some varieties which we would like to feature in this catalog, such as *Fred Edmunds*, *Crimson Glory*, *Peace* and *Pinocchio*, are omitted because of our underproduction of them. These plants will be available in future catalogs.

WHAT THE MEANS TO YOU

The symbol of the A.A.R.S. signifies that the rose in question has been chosen by a group of men interested in the rose industry as an outstanding rose the year of its introduction. When you buy a rose bearing this insignia, you are assured that that rose will meet all specifications for one worthy of merit in your rose garden.

1949 AWARD WINNERS

Illustrated on Front and Back Covers

Rose Forty-niner

(Plant Pat. No. 792)

Award Winner for 1949. The most brilliant bi-color ever introduced. Outside of the petals is a rich chrome yellow, sometimes overlaid with pink, changing to straw yellow in the open flower. The inside of the petals is a vivid Orient red, changing to cherry red with age. The color of the Forty-niner lasts until the last petal drops. Buds are long-pointed and well formed, opening into well-shaped flowers. The blooms have a mild pleasant scent. The plant is very vigorous, tall and upright with flat, dark green foliage.

Price \$2.50 each; 3 for \$6.30

Rose Tallyho

(Plant Pat. Applied for)

Award Winner for 1949. The color of Tallyho, which is entirely new in roses, is quite unusual, varying somewhat with the weather and planting location. The inside of the petals is a delightful shade of Phlox pink and the outside of the petals varies from crimson to cardinal red. Although it is a bi-color, the contrast is not great. Ovoid buds open to flowers of a spicy fragrance. The cut flowers last well. The plant is of robust growth.

Price \$2.50 each; 3 for \$6.30

Here are three views of our fields, taken in July when our roses were in full bloom.

Each of the 500,000 plants in this field averaged 20 blooms - total of 10,000,000.

You are invited to visit our fields during June, July, August and September

PLANTING INSTRUCTIONS

Dig a hole 18 inches deep and 15 inches wide. Mix the bottom 6 inches of soil with well rotted cow manure or leaf mold and add to this one cup of bone manure or another well balanced plant food. Be sure that at least 4 inches of soil is placed on top of this fertilizer.

Spread Out the Roots

Set plant with collar or bud union 1 inch below the surface of the ground. Fill in hole with top soil and tramp thoroughly around plant, leaving a slight hollow around plant. Water thoroughly. Cut tops back to 6 inches. Plant bushes 16 to 18 inches apart.

In dry summers, plants should be watered at least once every two weeks. Plant your roses where they will get sunshine at least one-half of the day. These Oregon Grown Roses with proper care will bloom for you all summer and fall.

If planted in a region having severe winters, after the plants have become

How to Remit

The safest way to send payment is by Check, U. S. Postal Notes, or by Post Office or Express Money Order. We will not assume any responsibility if stamps or cash are sent unless sent by registered mail. Remittance in full should accompany all orders. No C. O. D. orders accepted.

Planting Instructions—

APPLAUSE

Applause (Plant Pat. Applied for)

The new rose Applause is another descendant of that famous variety Charlotte Armstrong. It is a rose which is going to make its way in the world on its own merit. The big fragrant buds are a sparkling, dazzling light red in color. The perfectly shaped 50-petalled open blooms are heavy with fragrance. One feature that will put this variety over in any rose garden is the enormous quantity of blooms which it carries.

Applause is the first rose to win the much-prized Gold Medal at the famous Bagatelle Gardens in Paris in the first post-war contest. The time honored Bagatelle competition is the most famous of all international competitions for new roses.

Price \$2.50 each; 3 for \$6.30

COUNTESS VANDAL

CHARLOTTE ARMSTRONG

Charlotte Armstrong

(Plant Pat. No. 455)

The rose fancier's dream has come true in this lovely rose. The streamlined deep red buds are of perfect form, and open slowly to full deep blooms of pink, excellent in form and beauty. Blooms are borne on good cutting stems and last for days. The thrifty growing plant is disease resistant.

Price \$1.50 each; 3 for \$3.75

Countess Vandal

(Plant Pat. No. 38)

Ever increasing in its popularity as one of the best salmon-pink roses, Countess Vandal has long tapering buds of salmon-rose shaded with copper and gold. The exquisite form of the open flower is seldom equalled by any rose. Stems are long and very fine for cutting. The plant is upright and robust and supplies surprising quantities of lovely cut flowers.

Price \$1.35 each; 3 for \$3.40

PRE-INTRODUCTION OFFER OF OUR NEW ROSE

MULTNOMAH (Illustrated on Catalog Envelope)

(Plant Pat. Applied for)

The first of a series of roses created especially for Pacific Northwest rose lovers. This 3-foot bush with its glossy green foliage and almost thornless stems is named in honor of the tall, graceful Multnomah Falls. The 3-inch pointed buds on extra long upright thornless stems are ideal for cutting. The color of this rose is rivaled only by that found in glorious western sunsets. It is vivid carmine with tinctures of gold at the base and fades only slightly as its 25 to 30 sweetly scented petals unfold to show all of its beauty. MULTNOMAH is a rose you must have.

Recommended highly from San Francisco to Alaska on the western slope.

Price \$2.50 each; 3 for \$6.30

OUR NO. 1 GROUP Forty-niner (Front Cover) **3 PLANTS**
Multnomah (Page 3) Catalog Value \$7.50
Tallyho (Back Cover) **\$6.75**

Grand Duchesse Charlotte

(Plant Pat. No. 774)

Long beautifully shaped buds of burnt orange unfold into firm petaled blooms which gradually change to a lovely begonia-rose—a color not seen in any other rose. The free-flowering bushes are extremely vigorous and have an abundance of glossy disease resistant foliage. We highly recommend this fragrant rose to you.

Price \$1.50 each; 3 for \$3.75

GRAND DUCHESSE CHARLOTTE

San Luis Rey

(Plant Pat. Applied for)

A multitude of shapely double, vivid yellow flowers produced on an especially attractive plant. Each high centered flower is a picture of loveliness. Blooms are about 2½ inches across. The plant is very bushy with glossy foliage, a valuable addition to any garden.

Price \$2.00 each; 3 for \$5.00

Diamond Jubilee

(Plant Pat. Applied for)

This warm glowing buff-orange rose is seldom surpassed in loveliness. The well formed petals are of good substance and do not fade or burn, but rather intensify in color as they unfold. The beauty of this rose is further enhanced by its "Old Rose" fragrance. The plant, which is most attractive in itself, is sturdy and full growing from 3 to 3½ feet and the stems are excellent for cutting.

Price \$2.00 each; 3 for \$5.00

California

(Plant Pat. No. 449)

A sensational rose noted for its unique and lovely shade of ruddy orange toned with saffron yellow. The outside of the broad petals is overlaid with saturn-rose—a two-toned effect of indescribable richness and beauty. Long-pointed buds open into gigantic flowers, reaching a diameter of five to six inches. The plant is of robust growth, with healthy, glossy green foliage. California was given an AARS sectional award for the Pacific Coast.

Price \$1.25 each; 3 for \$3.15

SAN LUIS REY

DIAMOND JUBILEE

CALIFORNIA

DICKSON'S RED

Dickson's Red

(Plant Pat. No. 376)

A glowing scarlet-rose. Its warmth of color and abundant bloom is unflagging throughout the summer heat. The flowers and buds are well shaped and have a rich fragrance you like in a rose. This will be your favorite rose for cutting as the blooms are carried on long, strong, practically thornless stems.

Price \$1.35 each; 3 for \$3.40

San Gabriel

(Plant Pat. Applied for)

A new rose introduced to the public in 1947. It has very large, long-pointed buds of deep salmon-pink and large high-centered, very double blooms, that are produced single. The plant is vigorous, bushy in growth and has an abundant leathery light green foliage. This flower is profuse and continuous, and a moderately fragrant bloomer.

Price \$2.00 each; 3 for \$5.00

Fantasia

(Plant Pat. No. 590)

Gracefully shaped buds of bright golden-yellow open to peach, then creamy yellow. Its growth habits are similar to the floribundas in its profusion of bloom—an excellent display of rich color for any garden. The strong plants have an abundance of healthy foliage.

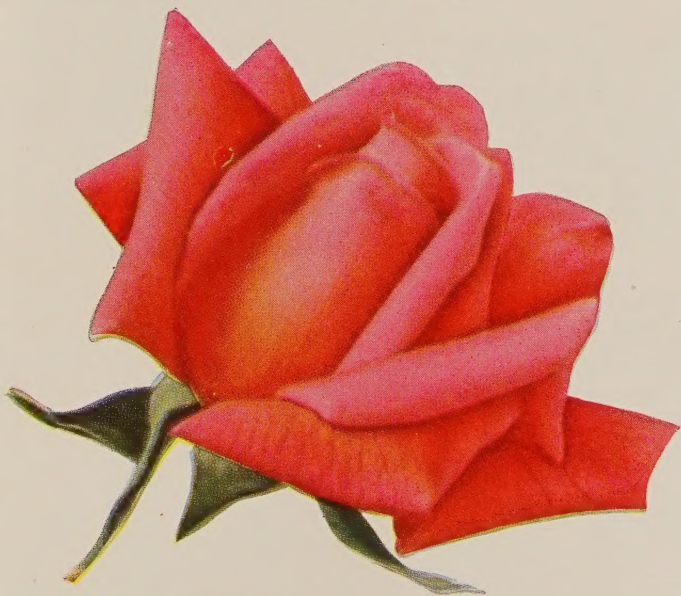

Price \$1.50 each; 3 for \$3.75

Fantastique

(Plant Pat. No. 574)

Fantastique, with its sweet clear scent, is daintily colored like a picotee tulip. The base color of the well-formed petals is a soft corn yellow, while the very edges of the petals are feathered with carmine. Blooms come singly and steadily all summer. It grows about 1½ feet high.

FANTASTIQUE

HECTOR DEANE

Hector Deane

(Plant Pat. No. 361)

A McGredy rose—and one of the finest. The long-pointed bud is crimson with a touch of orange in the depth. The orange diffuses as the petal opens into the informal bloom. This rose is so rich in its perfume that a single plant scents the whole garden. It is exceedingly liberal and constant in bloom.

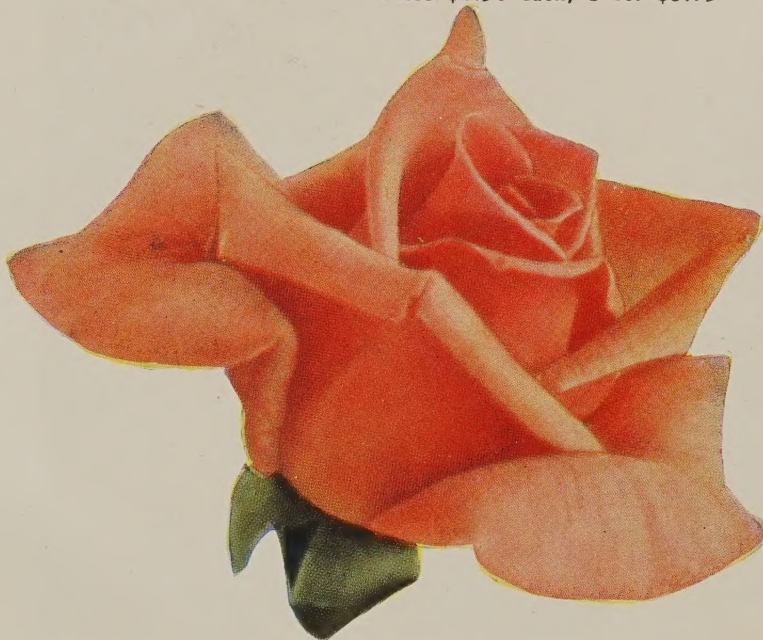

Price \$1.35 each; 3 for \$3.40

Prima Donna

(Plant Pat. No. 639)

This lovely salmon-pink rose should win on the exhibition table. It is unsurpassed for cutting and landscaping purposes. Each individual flower is a gem, the pretty blooms being borne on long single stems. The form is good and the color lasting. This dependable rose should have a place in your garden.

Price \$1.50 each; 3 for \$3.75

PRIMA DONNA

STERLING

Sterling

(Plant Pat. No. 21)

A gorgeous glowing deep pink flower of superb modelling in bud as well as in full bloom. The base of the petals is gold, which imparts a richness and warmth to the flower. It has very good foliage, grows strongly and blooms freely in summer as well as in autumn. Sterling deserves a place in your rose garden.

Price \$1.25 each; 3 for \$3.15

Texas Centennial

(Plant Pat. No. 162)

The tight lasting buds of this plant are blood red in cool weather, changing to carmine as the temperature rises. The bright high-centered flowers of brick red brushed with gold, will charm and delight you with their loveliness. This plant has remarkably strong growing qualities and flowers of magnificent size.

Price \$1.25 each; 3 for \$3.15

MARK SULLIVAN

Mark Sullivan

(Plant Pat. No. 599)

Each substantial petal of this rose is a "thing of beauty" in itself—golden yellow overlaid and heavily veined with cerise and rose. The long firm stems hold erect the huge glowing high-centered blossoms of excellent symmetry. The plant grows tall and shapely, developing a constant succession of buds and bloom. Foliage is fresh and glossy.

Price \$1.25 each; 3 for \$3.15

Lowell Thomas

(Plant Pat. No. 595)

Vibrant chrome-yellow blooms open into well-shaped buds. The full bloom is formed into a high-cupped center, 25 petals curving outward. The color is clear and deep with a glowing quality not seen in other roses of this color. A strong grower with good foliage and stiff stems. The finest of the deep yellow roses.

Price \$1.50 each; 3 for \$3.75

LOWELL THOMAS

SANTA ANITA

Santa Anita

(Plant Pat. No. 539)

This is an outstanding rose that you should have in your garden. The perfectly formed streamlined buds open into beautifully shaped blooms of a pure deep pink. The color of the bloom does not fade during the cruelest summer days. Santa Anita blooms early and continues to flower liberally until the end of the season. The plants are rugged and not too tall.

Price \$1.25 each; 3 for \$3.15

Heart's Desire

(Plant Pat. No. 501)

All-America Rose Winner in 1942. Long-pointed buds of clear glowing red open to a full high-centered flower of a somewhat light shade. This unfading flower has a marvelous fragrance. The foliage is rich green and its growing habit is luxuriant. Flowers are produced freely throughout the entire season. One of the best red roses.

Price \$1.50 each; 3 for \$3.75

Illustrated on these 2 pages we have 10 roses featured in our famous Premium Collection. These roses have won hundreds of premiums and first prizes in every rose show on the Pacific Coast.

Your rose garden will not be complete unless it contains one, two or three of each rose in this collection. In planting these roses you can assure yourself of an abundance of cut flowers and also have a potential Sweepstake winner in your garden for the next rose show.

You may select any quantity of the individual varieties on this page at \$1.25 each.

McGREDY'S
YELLOW

K. A.
VICTORIA

SISTER THERESE

MRS. H. M. EDDIE

Mrs. H. M. Eddie

(Plant Pat. No. 753)

This gorgeous white rose with delicately curving petals is quite new in the United States but in Canada, where it was originated, it is known to be a remarkable rose. Round luxuriantly bushy plants grow from 2 to 2½ feet high. You'll not regret trying this beauty.

Price \$1.50 each; 3 for \$3.75

Rubaiyat

(Plant Pat. No. 758)

An All-America Winner of 1947. Graceful long-pointed shapely buds open to very large flowers. The color is brilliant rose-red to crimson with under side of petals several shades lighter. In the fall, it is a deeper red than during the summer weather. Excellent in growth habit and vigor with strong, straight stems for cutting.

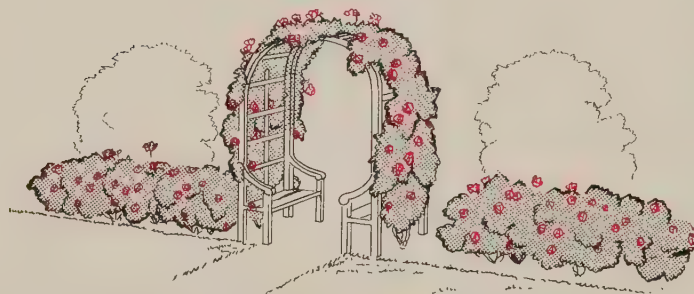

Price \$1.50 each; 3 for \$3.75

Mme. Henri Guillot

(Plant Pat. No. 337)

This enticingly beautiful rose is a rich shining raspberry-pink color, held erect above the large glossy foliage. The large urn-shaped buds open slowly to camellia-like blooms about 5 inches across. A spreading grower—2½ to 3 feet.

Price \$1.50 each; 3 for \$3.75

\$7.75

McGredy's Salmon

(Plant Pat. No. 410)

Beautifully modelled buds which unfold into charming apricot-salmon flowers of pleasing fragrance and excellent form. The plant itself is of medium growth, very fine foliage and prolific blooming habit.

Price \$1.50 each; 3 for \$3.75

Golden Harvest

(Plant Pat. No. 729)

An outstanding exhibition rose with clear golden yellow blooms that do not readily fade. The blooms are large and fragrant. This vigorous spreading plant grows from 3 to 3½ feet tall. It is prolific and has good foliage.

Price \$1.50 each; 3 for \$3.75

San Fernando

(Plant Pat. Applied for)

A spectacular 30-petalled rose of glowing currant red. The petals are extremely heavily textured, looking like velvet. As the bloom unfolds the color changes to bright scarlet. The fragrance of this rose is most pronounced, and stays until the last petal drops. The pointed shapely buds are carried on straight sturdy stems. A compact and vigorous grower with heavy dark leathery foliage. No wonder this was an All-America Winner of 1948.

Price \$2.00 each; 3 for \$5.00

McGREDY'S SALMON

SAN FERNANDO

GOLDEN HARVEST

SONATA

Sonata

(Plant Pat. No. 732)

Artistically urn-shaped blooms of a deep camellia-rose are carried on good cutting stems above glossy foliage. Mildly fragrant, this rose is of a stronger color than most pink roses, and is quite unusual in its unique shades. A free branching plant.

Price \$1.50 each; 3 for \$3.75

Sweet Sixteen

(Plant Pat. No. 631)

This rose blooms early in the season. The attractive light pink buds with shades of rose will be ready for cutting ahead of most roses in your garden. The long firm buds, half unrolled blooms, and the large petalled open flowers are magnificent in their form and delicacy of fragrance. It is 3 to 3½ feet in height; disease resistant.

Price \$1.50 each; 3 for \$3.75

Saturnia

(Plant Pat. No. 349)

One of the outstanding roses of the Pacific Northwest area. Brilliant cardinal-red petals with a reverse of salmon-yellow and copper. The unforgettable fruity fragrance and glowing color of this rose should make it a favorite. The bush is sturdy, growing from 2 to 2½ feet; the foliage is rich, dark and glossy green.

Price \$1.50 each; 3 for \$3.75

SWEET SIXTEEN →

SIGNORA

Signora

(Plant Pat. No. 201)

The long buds, of a warm burnt sienna, opening to a lighter hue, toward mandarin, are carried on strong stems for cutting. Blooms continuously in bursts of golden color from early spring to winter. The bush is a vigorous grower with glossy foliage.

Price \$1.35 each; 3 for \$3.40

SATURNIA

SNOWBIRD

Snowbird

Exquisitely shaped, long flaring buds open into snowy white, many-petalled high-centered blooms. An excellent white, each bloom is perfect and deliciously fragrant. It is a continuous bloomer. A healthy, vigorous plant with attractive foliage.

Price \$1.50 each; 3 for \$3.75

Debonair

(Plant Pat. No. 677)

A lovely new yellow rose with excellent quality in both the buds and half open flowers. The petal texture is outstanding in this rose. The open flowers keep well on the bush and when cut. They do not blow open in a few hours as so many yellows do. The flowers are high-centered, double, primrose-yellow, paling as the flower ages. An entrancing old-fashioned fragrance. Free blooming, vigorous plant with attractive foliage.

Price \$1.50 each; 3 for \$3.75

DEBONAIR

The Chief

(Plant Pat. No. 456)

The very long urn-shaped buds in shades of deep rose, open to full flowers of copper, coral and flame, changing to an unusual shade of orange-pink before the petals fall. The huge flowers of fruity fragrance are borne on exceptionally long stems. The plant is vigorous and spreading with mildew resistant foliage.

Price \$1.50 each; 3 for \$3.75

THE CHIEF

CL. PICTURE

Cl. Santa Anita

(Plant Pat. Applied for)

A multitude of perfect clear pink roses on a bush of moderate proportions. The clean, well-shaped buds are ideal for cutting. They open into lovely blooms of a deep pink shade. The color of the bloom is "sun-fast," not changing even in the hottest weather. This rose blooms early and continues till the end of the season.

Price \$1.50 each; 3 for \$3.75

Patented Climbers

Cl. Picture

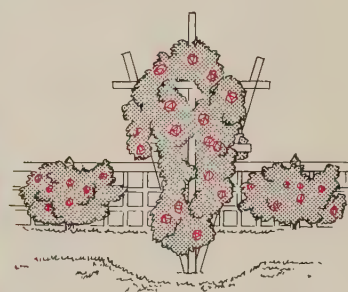

(Plant Pat. No. 524)

This little sweetheart is one of the finest pink roses. The bloom is medium size, but of excellent symmetry and trim loveliness. The flowers are large and lasting, pink with warm undertones of salmon, having a sweet tea fragrance. This climber grows thriftily and will supply you with generous quantities of lovely bloom. Strong and erect stems and good foliage.

Price \$1.50 each; 3 for \$3.75

CL. MRS. SAM MCGREDY

Cl. Mrs. Sam McGredy

(Plant Pat. No. 374)

You'll fall in love with this one. Long coppery buds, flushed yellow at the base, unfold to form perfect flowers of brilliant orange. During warmer weather the blooms become a lively pink shade. Mild, pleasant fragrant blooms borne in astonishing quantities throughout the season.

Price \$1.50 each; 3 for \$3.75

PLANTING

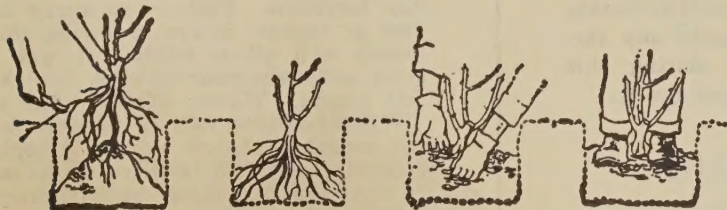

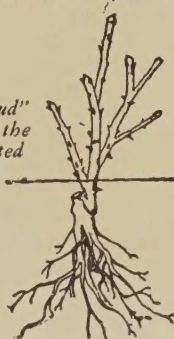

Preparing soil for rose-bed by working manure into the bottom.

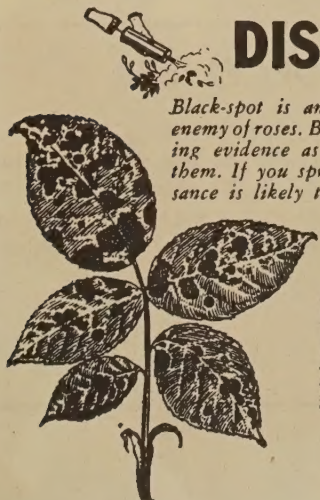

Keeping the roots in water or thin mud until planted to prevent their getting dry.

Showing the "bud" placed just under the surface when planted

DISEASES

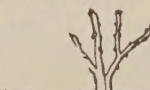

Black-spot is an easily recognized enemy of roses. Burn all leaves showing evidence as soon as you find them. If you spray before this nuisance is likely to appear, you may not be troubled at all.

Mildew can be controlled with Bordeaux mixture or sulphur dust which are the standard fungicides for both the diseases illustrated here.

PRUNING

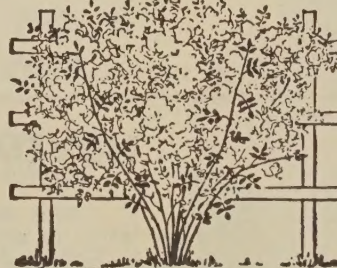

A Hybrid Tea pruned close in spring.

Result of close pruning—low, compact bush, large flowers.

The result of close pruning—compact growth, large flowers.

Scappoose, Oregon

ROSE CALENDAR

JANUARY

This is a good month for dormant spray. When we have a few dry days get busy, first pick up and dispose of old leaves from the ground and remove any foliage which persists on the canes. Such leaves are an important source of disease infection. Spray bushes thoroughly with commercial LIQUID lime-sulfur at rate of ONE gallon to TEN or TWELVE gallons of water. Around the 15th of the month apply from FOUR to SIX inches of cow manure to the beds.

FEBRUARY

If bushes have not been given a dormant spray in January they MUST be sprayed the forepart of this month or else spray injury to the new shoots will result. If the buds have started growing before the bushes can be sprayed, decrease the strength of the LIQUID lime-sulfur, using ONE gallon to TEN or TWELVE gallons of water. Around the 15th of the month apply from FOUR to SIX inches of cow manure to the beds.

MARCH

Weather regulates your pruning during this month, it is always safe to prune from the middle of this month to the latter part so that a late frost will not kill premature growth. Spraying or dusting for the control of diseases and insect pests should begin as the first leaves unfold, which will generally take place the latter part of March.

APRIL

It is well to spray or dust the bushes regularly every TEN days. During the latter part of month, an application of complete chemical fertilizer, 4-12-4 formula, at rate of about TWO pounds per 100 square feet. Water in.

MAY

Spray or dust at regular TEN day intervals. Apply complete fertilizer 4-12-4 formula, at weekly to 15 day intervals at rate of TWO pounds per 100 square feet, water in. It is well to give the beds a good watering every week. Hybrid Teas can be disbudded at TWO-THREE-day intervals, leaving only the terminal bud on a shoot.

JUNE

Spray or dust at regular TEN-day intervals. Water beds well at weekly intervals. A mulch of some sort should be applied to the soil during this month if cow manure has not been previously applied to hold moisture.

JULY

Spray or dust at regular TEN-day intervals. DO NOT spray or dust when temperature is above 85 degrees. Water beds at weekly intervals. DO NOT FERTILIZE. During latter part of month cut back some of the more "stocky" canes about SIX inches to stimulate new growth for the fall blooms.

AUGUST

Spray or dust at regular TEN-day intervals. Water, SOAK beds at weekly intervals. DO NOT apply any fertilizer on the bushes during this month or root injury may result.

SEPTEMBER

Spray or dust at FIVE- to SEVEN-day intervals. Failure to spray or dust at regular intervals during this month will allow mildew to get a start and ruin your blooms for the fall bloom. Water, SOAK beds at TWO-week intervals if rainfall for the month is below normal. Apply complete chemical fertilizer at weekly intervals, beginning the first week in September.

OCTOBER

Spray or dust at TWO-week intervals, thereby making disease easier to control the following season. No water or fertilizer is needed this month.

NOVEMBER

It is advisable to give your bushes a preliminary pruning or "topping" to minimize possible root damage during high winds and early frost. New roses may be planted this month.

DECEMBER

New roses may be planted from the latter part of November up until May 1st. A winter spray of lime and sulphur may be given if dry weather prevails.

Popular Floribundas

White Wings

(Plant Pat. Applied for)

The perfectly formed crisp flowers of silvery-white show to excellent advantage above the laurel green foliage. The fine petalled roses are borne in sprays, each separate flower being attractively placed. In the center of the bloom is a lovely cluster of amethyst stamens tipped with anthers of gold. Beautiful in its simplicity this will be acclaimed the finest single white rose.

Price \$1.50 each; 3 for \$3.75

WHITE WINGS

Rose Elfe

A darling little rose bound to become your favorite. The small buds of silvery rose-pink color are lovely on the bush as well as in the lapel. Gardenia-like flowers about 2½ in. across are extremely double and are produced all summer, blooming till frost. They are slightly scented and make wonderful arrangements. The plants are tall growing and disease resistant.

Price \$1.25 each; 3 for \$3.15

RED RIPPLES

Red Ripples

An intense red that fairly sparkles on the spectacular blooms. Magnificent for mass plantings with its large clusters of wavy-petalled flowers. The color is unfading and the blooms long lasting. A good, vigorous plant and excellent bloomer. It is a bright spot in any garden.

Price \$1.25 each; 3 for \$3.15

Else Poulsen

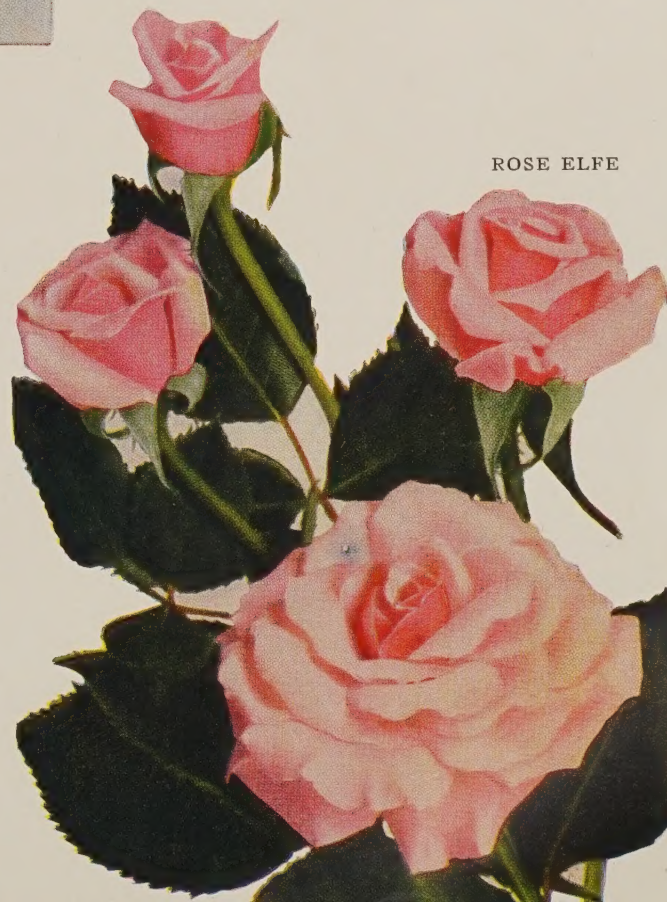

One of the most outstanding of the Floribunda roses. The semi-double, bright rose-pink blooms, a little bigger than the usual type, are borne in profusion from early June to late autumn. Plants are erect, very thrifty, and have fine clean foliage. 3 to 3½ feet.

Price \$1.25 each; 3 for \$3.15

Rose Tallyho

(Plant Pat. Applied for)

Award Winner for 1949. The color of Tallyho, which is entirely new in roses is quite unusual, varying somewhat with the weather and planting location. The inside of the petals is a delightful shade of Phlox pink and the outside of the petals varies from crimson to cardinal red. Although it is a bi-color, the contrast is not great. The ovoid buds open to flowers of a spicy fragrance. The cut flowers last well. The plant is of robust growth.

Price \$2.50 each; 3 for \$6.30
